

Guideline [Frontiers Media S.A.](#)

January 2023

For authors of the University of Zurich to benefit from the membership conditions of the publishing house Frontiers Media S.A., the following criteria apply:

- (1) The first or last author is an employee of either the University of Zurich or of one of the hospitals¹ and clinics associated with the University of Zurich with the implicit understanding that the work was mainly created there.
- (2) If neither the first nor the last author is an employee of the UZH or the associated hospitals, then the submitting author as well as at least one third of all authors has to be employed at the UZH or the associated hospitals.
- (3) Privatdozierende or Titularprofessor:innen (adjunct professors, senior lecturers) that are employed by a separate institution can submit a publication via the membership if at least one third of all authors is employed by the UZH or by one of the associated hospitals.
- (4) An employment means a current employment or at the time when the work was created (from doctorate level).
- (5) In the submission process, the affiliation to the University of Zurich or the University Hospital or Clinic must be selected.

In each case the University Library Zurich reserves the right to accept or decline a publication submitted under the conditions of the membership independently of the guideline listed above. In addition, alternative financing options (e.g. via SNSF <https://oa100.snf.ch/>) are being examined.
